

Species: *Hamamelis x intermedia*

(ham-à-mē'lis in-tēr-mē'di-à)

Witchhazel Hybrids

Cultivar Information

Numerous varieties mainly selected for bloom time, color, size, etc. A few of the most common are listed. For more cultivars as well as a ranking of winter foliage retention and flower fragrance go here:

<http://www.scottarboretum.org/publications/HamamelisReport.pdf>

* See specific cultivar notes on next page.

Ornamental Characteristics

Size: Tree < 30 feet, Shrub > 8 feet

Height: 15'-20'

Leaves: Deciduous

Shape: upright oval outline in youth; more rounded and spreading with age

Ornamental Other:

Environmental Characteristics

Light: Full sun, Part shade

Hardy To Zone: 5a

Soil Ph: Can tolerate acid to neutral soil (pH 5.0 to 7.4)

Environmental Other: multi-stemmed, loosely branched

Insect Disease

No diseases listed

Bare Root Transplanting

Any

Other

garden hybrid between *H. japonica* and *H. mollis*Cultivars for *Hamamelis x intermedia*

Showing 1-7 of 7 items.

Cultivar Name	Notes
Arnold's Promise	'Arnold's Promise' - upright, vase-shaped cultivar; ascending branches; spreading habit; grows to 12-15' tall; sweetly fragrant flowers; later blooming than most of the other x intermedia cultivars; numerous bright yellow flowers from February to March; yellow-orange to yellow fall foliage color
Jelena	'Jelena' (a.k.a. 'Copper Beauty') - upright form; ascending branches; spreading habit; grows slowly to 8-12' tall; sweetly fragrant, copper flowers; bloom in February to March; orange-red fall color
Diane	'Diane' - superior red-flowering form, however blooms can be obscured as plant retains dead leaves
Primavera	'Primavera' - superior flower fragrance; abundant yellow blooms with a prominent reddish base; flowers early; features yellow fall color
Ruby Glow	'Ruby Glow' (a.k.a. 'Adonis' and 'Rubra Superba') - deep coppery-red to red-brown flowers that lack fragrance; vase-shaped habit; to 20' tall and wide; orange-red fall color
Sunburst	'Sunburst' - intensely colored, profuse yellow blooms; may retain some leaves that obscure the blooms
Westerstede	'Westerstede' - light yellow blooms with a light fragrance; flowers late (February to March); fall color is yellow; upright habit
