

## Species: *Pinus cembra*

(pye'nus sem'brah)

### Swiss Stone Pine

#### Cultivar Information

This species several cultivars, several are listed below.

\* See specific cultivar notes on next page.

#### Ornamental Characteristics

Size: Tree < 30 feet

Height: 10' - 30'

Leaves: Evergreen

Shape: narrowly columnar, pyramidal; open with age

Ornamental Other:

#### Environmental Characteristics

Light: Full sun

Hardy To Zone: 3b

Soil Ph: Can tolerate acid to neutral soil (pH 5.0 to 7.4)

Environmental Other: Full sun required.

#### Insect Disease

Those commonly associated with the Pinus genus. See Pinus bungeana.

#### Bare Root Transplanting

Difficult

## Other

Transplant B & B in spring or fall Native to Europe and central Asia

Cultivars for *Pinus cembra*

Showing **1-17** of **17** items.

Cultivar Name	Notes
Algonquin Pillar	'Algonquin Pillar' - narrow upright form; long, two-toned, twisting, bluish green needles; extremely hardy;
Blue Mound	'Blue Mound' - broad upright form; bluish-green foliage; compact, wider selection; has a soft, fluffy look; branches have a lush, bushy look; extremely hardy
