Cultivar Name	Notes
New Harmony	'New Harmony' - less resistant to dutch elm disease than 'Valley Forge.' Vase shape with arching limbs.
Valley Forge	'Valley Forge' - resistant to dutch elm disease
Independence	'Independence' - a hybrid created from a cross of Ulmus americana 'Moline' and Ulmus americana W 185-21; it is one of six clones that comprise the much- heralded 'American Liberty' multi-clone variety; develops an upright, vase- shaped crown typical of the species; has demonstrated tolerance to DED, but may be quite susceptible to elm yellows (a relatively rare disease in the Midwest)
Jefferson	Vase shape with arching limbs, yellow fall color. Original tree grows on the National Mall in Washington D.C.
Prairie Expedition	Extremely cold hardy, this cultivar descends from a lone survivor of Dutch Elm disease found in North Dakota. Has a broader, more rounded and spreading vase shape
Princeton	Very upright, vase form
Colonial Spirit	Tolerant of Dutch Elm disease. Reportedly has classic American elm form.
