

Species: *Acer x freemanii*

Freeman Maple

Cultivar Information

* See specific cultivar notes on next page.

Ornamental Characteristics

Size: Tree > 30 feet

Height:

Leaves: Deciduous

Shape:

Ornamental Other:

Environmental Characteristics

Light: Full sun

Hardy To Zone: 5a

Soil Ph: Can tolerate acid to neutral soil (pH 5.0 to 7.4)

Insect Disease

No diseases listed

Bare Root Transplanting

Easy

Other

A naturally occurring or nurseryman encouraged hybrid between *Acer rubrum* and *Acer saccharinum*, and found where their native ranges overlap. Shares the qualities of both parents variably. Generally has the smooth silvery bark and good red fall color of *A. rubrum*, more incised leaves like *A. saccharinum*. Generally less prone to breaking than *A. saccharinum*.

Moisture Tolerance

Cultivars for *Acer x freemanii*Showing **1-9** of **9** items.
